

General Schedule and Session Layout

‘Hermanos Ameijeiras’ Hospital 27-28 October 2010

| | October 27 | October 28 |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Morning | <p>08.00 Participant registration</p> <p>09:00 Opening Session ‘ Welcome’ Prof. M.A. Enamorado, Director</p> <p>Introduction Prof. W. Scherbaum/ Prof. J. González</p> <p>1- Chairmans: Prof. W Scherbaum & Prof. J González</p> <p>09.20/10.00- Odor: physiology, behavior, and mental states-Prof. B. Pause</p> <p>10.00/10.40- Intranasal insulin: a model to assess brain effects of insulin: cognition- Prof. U. Stockhorst/ Prof. J González (AvH)</p> <p style="text-align: center;">10.40/11.00 Coffee break</p> <p>11.00/11.40– Dementia (Alzheimer) and Diabetes–Prof. W. Scherbaum</p> <p>11.40/12.20 – Insulin and brain-Prof. L. Bell</p> <p>12.20/13.00 – Molecular modelling-Dr. J. Gulín (AvH)</p> <p style="text-align: center;">13.00/14.00 Lunch</p> | <p>09:00 AvH-DAAD presentation</p> <p style="text-align: center;">Video</p> <p>3- Chairmans: Prof. U. Stockhorst & Prof. L. Bell</p> <p>09.20/10.00- Cell membrane and genetic-Prof. W. Stühmer</p> <p>10.00/10.40 –Neurogenesis in adult brain-Prof. C de Oliveira (AvH)</p> <p style="text-align: center;">10.40/11.00 Coffee break</p> <p>11.00/11.40 –Neurodegeneration and aging-Prof. M. Bergado</p> <p>11.40/12.20 – Electrophysiological tools to assess the brain -Dr. E. Martin</p> <p>12.20/13.00 – Electrophysiological biomarkers and neuropsychiatric diseases -Prof. JA. González (AvH)</p> <p style="text-align: center;">13.00/14.00 Lunch</p> |

| | | |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | |
| Afternoon | <p>2- Chairmans: Prof. B. Pause & Prof. N. Hernández</p> <p>14.00/14.40 – Anthropology: impact of the earthquake in Haiti –Prof. Ribeira Thomaz (AvH)</p> <p>14.40/15.20 –Recombinant human IL-2-Dr. V. Morera (AvH)</p> <p style="text-align: center;">15.20/15.40 Coffee break</p> <p>15.40/16.20 –Understanding anti-inflammatory and toxic properties of medicinal plants: chemical and biological tools-Prof. F. de Costa (AvH)</p> <p>16.20/17.00-General Discussion</p> <p>Chairmans: Prof. WA Scherbaum</p> <p style="text-align: center;">Prof. JA González</p> <p style="text-align: center;">Prof. B. Pause</p> <p style="text-align: center;">Prof. N. Hernández</p> | <p>4- Chairmans: Prof. W. Stühmer & Dr. E Martinez</p> <p>14.00/14.40 – Auditory pathway and echo- localization -Dr. E. Mora (AvH)</p> <p>14.40/15.20 – Avalanche: living matter-Prof. E. Altschuler</p> <p style="text-align: center;">15.20/15.40 Coffee break</p> <p>15.40/16.20 – Effect of humor on limbic system and autonomic system: electrophysiological neuroimage- PhDcandidate I.Iglesias / Prof. J. González</p> <p>16.20/17.00-General Discussion</p> <p>17.00/18.00 Closing Session:</p> <p style="text-align: center;">Discussing on future goal and strategies</p> |
| Night | Visit to Havana | 19.00 Closing Dinner |
| | * After each Lecture we have around 10 min to discussion | |
| Note | We are also organizing a visit to the work place of ‘Humboltianer’ and different academic and scientific institutions. | . |
